

## Astronomy

**Subject:** A. Astronomy

**Purpose:** B. The Astronomy collection is primarily intended to support undergraduate research and teaching as well as individual faculty projects.

**Academic Programs Served:**

C. The Astronomy collection supports programs primarily in the Department of Earth Science. No degree is offered in Astronomy but the subject is a requirement for the Bachelor of Arts degree as well as the Bachelor of Science certification in Secondary Science Education. Various aspects of Astronomy are of interest to such disciplines as Chemistry, Earth Science, Education, and Physics.

**Collection Guidelines:**

D. **Languages:** Materials are collected in English only.

**Chronology:** Current materials and imprints are emphasized.

**Geography:** Geographic guidelines are not appropriate for this subject. North American and Western European imprints are emphasized.

**Notes/Comments:**

Lower and upper division textbooks are excluded. Handbooks, guides, instrumentation, and science education materials are collected selectively.

**Library Liaison:** Rebecca Hedreen
