

## **Biology**

**Subject:** A. Biology

**Purpose:** B. The Biology collection is primarily intended to support undergraduate and graduate research and teaching to the Bachelor and Master levels as well as individual faculty projects.

**Academic Programs Served:**

C. The Biology collection supports programs primarily in the Biology Department. Degrees are offered at the Bachelor and Master levels in Biology as well as the Bachelor of Science certification in Science Education. Various aspects of Biology are of interest to other disciplines such as Education, Nursing, and Science Education and Environmental Studies.

**Collection Guidelines:**

**D. Languages:** Materials are collected in English only.

**Chronology:** Current materials and imprints are emphasized.

**Geography:** Connecticut, New England, and the eastern seaboard (including Canada) are emphasized. North American and Western European imprints are emphasized.

**Notes/Comments:**

Lower and upper division textbooks are excluded. Fisheries, environmental restoration, science education, and vertebrate anatomy and physiology (including human) are emphasized. Graduate level programmatic support is primarily from journals.

**Library Liaison:** Rebecca Hedreen
