

Military Science

Subject: A. Military Science

Purpose: B. The Military Science collection is primarily intended to support undergraduate research and teaching although courses are not specifically taught at the University in this topic area. Materials are collected to provide well-rounded collections of scholarly materials to fulfill the basic needs of an academic institution.

Academic Programs Served:

C. The Military Science collection supports a variety of programs taught in several departments through the availability of this collateral material. Various aspects of Military Science are of interest to such disciplines as History and Political Science.

Collection Guidelines:

D. Languages: Materials are primarily collected in English.

Chronology: All chronological periods are collected. Current materials and imprints are emphasized.

Geography: The United States and England are emphasized. North American and Western European imprints are emphasized.

Notes/Comments:

Lower and upper division textbooks are excluded.

Library Liaison: David Feinmark
