

General Science

Subject: A. General Science

Purpose: B. The general science collection is not specifically intended to support any particular degree programs taught at the University. Materials in this area are collected to provide well-rounded collections of scholarly materials to fulfill the basic information needs of an academic institution.

Academic Programs Served:

C. The general science collection supports a variety of programs taught in numerous departments through the availability of this collateral reading. Various aspects of general science are of interest to such disciplines as Biology, Chemistry, History, Physics, and Science Education and Environmental Studies.

Collection Guidelines:

D. Languages: Materials are collected in English only.

Chronology: Current materials and imprints are emphasized.

Geography: Geographic guidelines are not appropriate for this subject. Connecticut science history and writing is always collected. North American and Western European imprints are emphasized.

Notes/Comments:

Lower and upper division textbooks are excluded. The history of science, interdisciplinarity of science, and scientific biography are collected.

Library Liaison: Rebecca Hedreen
